

EMPERORS BEWARE

The World Cannot Be Ruled!
We are not vassals, serfs or
"Human Resources"

The laws of the United Nations
& of Nature Herself
cannot be bent double.

A pirate gang has seized the government
and runs it like a predatory Corporation.
Their dukes & cronies are already swarming over
the hypothetical corpse of Iraq.
And salivating at the dream of
700 billions in tax cuts.
While we go jobless, & without health care &
our school systems crumble.
All this junta can teach is aggression!

There is only the one "homeland",
the free-spinning many-peopled Earth.
In its name, we must defy this new Empire.
In its heart, we see they are already doomed.
Strike the flint: there is tinder.
